## Requesting a hearing

We are requesting a hearing on the tax that is due. We do believe that we should be tax exempt by the way the laws read on 12 CSR 10-111.060 and 12 CSR 10-111.061. We are a scrap metal recycler and that we use our forklift's and skid steer for this purpose. We also use our building for stripping all the metal and the fluids off the cars so we can crush our vehicles. We have a better turn around when we put the cars inside as to outside as we drain all the oils, cat, batteries, ac condenser, copper wiring etc. It is better to work inside as to outside in the weather. There is in no way that we would buy these forklifts just to process parts cars. We have other forklifts to process the parts which only cost around \$10,000.00.

When you process scrap vehicles you need good equipment which I do have, a lot to do with break downs and safety is another reason why I have good equipment. If I thought that I did not fall under these laws I would have never spent this much on these forklifts and would have did something else on dollar amount that I spent.

I have pics that will show you what I do to prove what im saying. I will bring them with me at the hearing and you can actually see how I will fall under these laws.

I'm not a very good letter writer but better in person to explain my side in this matter. Thank you very much for your time in this matter.
